

# Looking for Flutter Developers

Help Shape the Future of Accessible and adaptive Mobile Apps with **Flutter**!

## What is this study about?

- Researchers are testing a software prototype that lets **Flutter developers** generate adaptive and accessible mobile app UI for senior citizens.

## Who can participate?

- Professionals with over **6 months** of experience with the **Flutter framework**.

## What does participation involve?

- Join a 1-hour interview session on **Zoom** at a convenient time for you.
- Watch a series of short video demos on a software prototype that generates **accessible and personalised Flutter apps for older users**.
- Express your thoughts on the usefulness and usability of the tool.

## Interested?
